### DO TYPEWRITER USERS REALIZE

how much time is lost through needless hand adjustments on the ordinary machines?

Do you realize, for example, how much time is lost in ordinary letter writing by the hand adjustments of the carriage necessary to write the date, the address, indent the paragraphs, write "yours truly" and address the envelopes?

THE COLUMN SELECTOR of the MODEL 10 REMINGTON eliminates these hand adjustments-absolutely. A single touch on one of the SELECTOR KEYS brings the carriage instantly to the exact point on every line where the writing is to be dore.

And this is only one of the many labor saving features of the

## MARKET FOR WHEAT AND CORN IS ACTIVE

Oats and Provisions Also Higher on the Chicago Board of Trade.

CHICAGO, Jan. 15 .- Wheat and corn ound an active market today, particularly in the last hour, when they advanced cent, and assisted in boosting outs and a cent, and assisted in boosting onts and provisions. The range of wheat was nearly 2c. At the opening wheat sold a trifle over yesterday, but the advance tempted profit taking and other selling under which May declined ic. An influence was the failure of continental markets to reflect an advance at Liverpool, the mainland being attentive to a decline of tic at Buenos Ayres. At this concession important buying developed, shorts covering on the way up until the reaction had run an extreme of tic for May. Business was exceedingly active

andthe close was only to under the top and old over yesterday.

Con traders were convinced that a lari export business is being transacted in he coarse cereals. There was a report that the export transactions were fought a cut in prices to a basis of the covernment. The rise in futures drove shorts to cover and the close was strong.

Oss played a "me, too," role with reference to wheat and corn, and May cloud at a net advance of total corn, and total corn, close was only to under the top but firmly held.
